

No. 63. THE WIRELESS TELEGRAPHY LAWS, 1913 TO 1948.

ORDER MADE BY THE GOVERNOR UNDER SECTIONS 3 AND 7.

WINSTER,
Governor.

In exercise of the powers vested in me by sections 3 and 7 of the Wireless Telegraphy Laws, 1913 to 1948, I, the Governor, do hereby order as follows :—

1. This Order may be cited as the Wireless Telegraphy Order, 1949.
2. Unless otherwise specifically ordered, the provisions in this Order contained shall apply.

RECEIVING.

3. A licence to instal, work or maintain a wireless telegraphy receiving apparatus shall be valid for twelve months from the first day of the month of issue and shall be in the form and subject to the terms, conditions and restrictions contained in the First Schedule hereto :

First
Schedule.

Provided that, where under any regulation in force for the time being, no fee is paid for such licence the form contained in the First Schedule hereto shall be used with such variations or amendments as may be necessary to suit the case.

DEALERS.

4. A licence to sell, deal in, let on hire or otherwise dispose of apparatus for wireless telegraphy shall be valid for twelve months from the first day of the month of issue and shall be in the form and subject to the terms, conditions and restrictions contained in the Second Schedule hereto.

Second
Schedule.

AMATEURS.

5. A licence to instal, work or maintain an amateur wireless telegraphy station shall be valid for twelve months from the first day of the month of issue and shall be in the form and subject to the terms, conditions and restrictions contained in the Third Schedule hereto.

Third
Schedule.

MERCHANT SHIPPING.

6. A licence to instal or work a wireless telegraphy station on board any ship registered in Cyprus shall be in the form and subject to the terms, conditions and restrictions contained in the Fourth Schedule hereto.

Fourth
Schedule.

AIR, NAVIGATIONAL AND METEOROLOGICAL MESSAGES.

7. A licence to establish, instal or work a wireless telegraphy sending and receiving station or a wireless telegraphy receiving station, for the purpose of sending and receiving or of receiving air, navigational and meteorological messages, in any place in Cyprus shall, as nearly as possible and subject to such modifications or alterations as the circumstances of each case may require, be in the form and subject to the terms, conditions and restrictions contained in the Fifth Schedule hereto.

Fifth
Schedule

REPEALS.

8. The Orders set out in the Sixth Schedule hereto are hereby repealed :
Provided that any licence issued under the Orders so repealed and subsisting on the date of the coming into operation of this Order shall be valid and effective and shall be deemed to be a licence issued under this Order.

Sixth
Schedule.

AM. S.L. 21.3.51,
P. 129.

FIRST SCHEDULE.

*The Wireless Telegraphy Laws, 1913 to 1948.*LICENCE TO WORK, INSTAL OR MAINTAIN A WIRELESS TELEGRAPHY
RECEIVING APPARATUS.

FORM.

RECEIVING LICENCE.

Fee 10s.

No.

(This licence expires on the, 19.....)

Mr.

(Name in full to be shown in block letters—surname last)

of

(address in full)

is hereby authorized (subject in all respects to the Wireless Telegraphy Laws, 1913 to 1948, and to the terms, conditions and restrictions set forth on the back hereof) for a period ending on the date shown above, to instal or work or maintain a wireless telegraphy apparatus for the purpose of receiving messages in the premises occupied by the Licensee at

(address of premises)

The payment of the fee of 10s. is hereby acknowledged.

Dated, 19.....

Postmaster-General.

TERMS, CONDITIONS AND RESTRICTIONS.

1. The apparatus shall not be used for any purpose other than that of receiving broadcast programmes sent by wireless telephony from duly authorized broadcasting stations.

2.—(1) The licensee shall not use or allow the apparatus to be used for the receipt of messages other than messages sent for general reception. If any other message is unintentionally received, the licensee shall not make known or allow to be made known its contents, its origin or destination, its existence or the fact of its receipt to any person (other than a duly authorized officer of the Cyprus Government or a competent legal tribunal) and shall not reproduce in writing, copy, or make any use of such message or allow the same to be reproduced in writing, copied, or made use of.

(2) The licensee or any other person either on behalf or by permission of the licensee or with the cognizance of the licensee shall not reproduce or publish in the press or disseminate by order similar means messages sent for general reception by any station and received by means of the licensed apparatus.

3. The licensee shall not do any act which may be an infringement of any copyright which may exist in any matter transmitted.

4. The apparatus shall not be used in such a manner as to cause interference with the working of any other apparatus. In particular, reaction must not be used to such an extent as to energize any neighbouring aerial.

5. The length of the aerial shall not exceed 100 feet (including the external part of the lead in, if any). An aerial which crosses above or is liable to fall upon or to be blown on to any overhead power wire (including electric lighting wires) must be guarded to the reasonable satisfaction of the owner of the power wire concerned.

6. The installation shall be subject to the approval of the Postmaster-General and the apparatus and this licence shall be open to inspection at all reasonable times by the Postmaster-General or any person duly authorized by him in that behalf.

7. The licensee shall not sell or transfer the apparatus or any part thereof to any other person without the permission in writing of the Postmaster-General previously obtained.

8. A portable apparatus may be used at any place specified in the licence by the licensee or by any member of his household :

Provided that in either case the licence shall be carried by the person making use of such portable apparatus.

9. This licence may be cancelled by the Postmaster-General at any time, either by specific notice in writing sent through the post to the licensee at the address shown hereon or by a general notice in the *Gazette*, and shall be cancelled on breach of any of the terms, conditions and restrictions herein. In the event of cancellation no part of the fee will be returned.

10. This licence is not transferable.

SECOND SCHEDULE.

The Wireless Telegraphy Laws, 1913 to 1948.

LICENCE TO SELL, DEAL IN, LET ON HIRE OR OTHERWISE DISPOSE OF APPARATUS FOR WIRELESS TELEGRAPHY.

FORM.

DEALERS LICENCE.

Fee £1. _____ No. _____

(This licence expires on the _____)

Mr. _____,

(Name in full to be shown in block letters—surname last)

of _____,

(address in full)

is hereby authorized (subject in all respects to the Wireless Telegraphy Laws, 1913 to 1948, and to the terms, conditions and restrictions set forth on the back hereof) to sell, deal in, let on hire or otherwise dispose of apparatus for wireless telegraphy.

The payment of the fee of £1 is hereby acknowledged.

Dated _____, 19 _____

Postmaster-General.

TERMS, CONDITIONS AND RESTRICTIONS.

1. The licensee shall not sell, deal in, let on hire, or otherwise dispose of any apparatus (whether in complete set or in parts) or any thermionic valve intended for use in connection with wireless telegraphy to any person unless such person is the holder of a Wireless Telegraphy Receiving Licence in force at the time of such sale, dealing, hire or disposal.

2.—(1) The licensee shall keep a register wherein he shall enter—

(a) a full description of every apparatus and, where the apparatus is not in a complete set, of every part of an apparatus, and of every thermionic valve received by him for the purposes of the licence, together with the date of the receipt of such apparatus or part of an apparatus or of any thermionic valve ;

(b) the date of sale or hire of any such apparatus or any part of an apparatus or of any thermionic valve and the name, address and number of licence of the purchaser or hirer.

(2) The register shall be open to inspection at all reasonable times by the Postmaster-General or any person duly authorized by him in that behalf.

3. This licence may be cancelled by the Postmaster-General at any time, either by specific notice in writing sent through the post to the licensee at the address shown hereon or by a general notice in the *Gazette*, and shall be cancelled on breach of any of the terms, conditions and restrictions herein. In the event of cancellation no part of the fee will be returned.

4. This licence is not transferable.

THIRD SCHEDULE.

The Wireless Telegraphy Laws, 1913 to 1948.

No.

LICENCE TO ESTABLISH AN AMATEUR WIRELESS STATION.

FORM.

AMATEUR'S LICENCE.

Mr.

(Name in full to be shown in block letters — surname last)

of

(address in full)

(hereinafter called "the Licensee") is hereby authorized to establish a wireless sending and receiving station (hereinafter called "the Station") at....., for the purpose of exchanging with individual owners of other amateur stations (as defined in the International Radiocommunication Regulations), as part of his training in wireless telegraphy or any technical investigations in wireless telegraphy he may be conducting, messages in plain language referring to his technical investigations in wireless telegraphy or about non-current events in which the Licensee or the person with whom he is in communication has been directly concerned, which are so unimportant that in the ordinary course they would not be sent over public communication channels and subject in all respects to the Wireless Telegraphy Laws, 1913 to 1948 and to the terms, conditions and restrictions set forth at the back hereof.

Date....., 19.....

Postmaster-General.

All communications should be addressed to the Postmaster-General, General Post Office, Nicosia, quoting Reference.....

N.B.—Any change of address should be notified immediately (prior authority must be obtained before the station is established at a new address).

TERMS, CONDITIONS AND RESTRICTIONS.

1. *Radiotelegraph Conventions.*—The licensee shall observe the provisions of the International Telecommunication Convention, 1932, and the Radiocommunication Regulations annexed thereto or those of any subsequent International Convention and Regulations which may replace them so far as they are applicable to amateur stations.

2. *Power and Frequencies.*—Messages shall be sent only on frequencies within the bands and by the types of emission specified hereunder and the total D.C. power input to the anode circuit of the valve or valves energizing the aerial shall not exceed that shown against the respective frequencies.

<i>Power</i> <i>(in watts)</i>	<i>Frequencies</i> <i>(in Kilocycles per</i> <i>second)</i>	<i>Approximate equivalent</i> <i>wavelengths (in metres)</i>	<i>Types of</i> <i>emission.</i>
—	—	—	—

The use of "spark" sending apparatus is specifically forbidden. Unrectified alternating voltage shall not in any circumstances be employed for the H.T. supply to the sending apparatus, and the H.T. supply shall be so smoothed that the value of the residual ripple voltage does not exceed 5 per cent of the D.C. voltage.

3. *Frequency Control and Measurement.*—When in use, the sending apparatus shall be tuned to a frequency within an authorized band, which frequency shall be so selected and maintained that no appreciable energy is radiated on any frequency outside the limits of the band with and without the modulation applied, due allowance having been made for the inaccuracy of the calibrating device. A satisfactory method of frequency stabilization shall be employed in the sending apparatus.

Where the sending apparatus is not crystal-controlled there shall be kept at the station, and used whenever necessary (and on all occasions when the frequency used for sending is changed), a reliable frequency meter of the piezo-electric crystal type or other type approved by the Postmaster-General, for measuring the sending frequency to an accuracy of not less than ± 0.1 per cent. Where the sending apparatus is crystal-controlled the use of a separate crystal frequency meter as a calibrating device will not be compulsory, but a reasonably reliable frequency meter must be provided for checking that the sender is operating normally.

4. *Operator.*—The apparatus shall be operated only by the licensee Mr.....

5. *Sending Periods.*—The station shall be operated during such periods as may be defined by the Postmaster-General from time to time and no period of sending shall exceed 10 consecutive minutes. Sending shall not commence without listening on the frequency which is to be used in order to ascertain, as far as possible, whether interference is likely to be caused thereby with any other station which may be working.

6. *Log.*—A running record shall be kept in a book of approved type (not loose-leaf) of all sending periods, showing the date and time of each period and the frequency and type of emission employed (*see* condition 2). No gaps shall be left between entries in the log. The record of sending periods shall in all cases be initialled at the time of recording by the licensee.

7. *Receiver.*—The station shall always be equipped for the reception of signals sent on frequencies in current use at the station at any time by means of continuous wave telegraphy, telephony and any other type of emission authorized in condition 2.

8.—(1) *Messages.*—Messages may be exchanged only with amateur stations (as defined by the International Radiocommunication Regulations) in Cyprus or abroad. Except as is in this condition expressly provided, messages exchanged by means of the station shall relate solely to the licensee's private (but not business) affairs or those of the person with whom he is communicating and shall be in plain language. Special gramophone records for reproducing modulations of definite tones may be used for test purposes. Gramophone records of the type intended for entertainment purposes may be used on the condition that only one such record is used during the course of any day, the same record being repeated as desired; any record so used shall not have a playing time exceeding 10 minutes when played at the correct speed.

(2) The use of the station for: (a) advertising or business purposes, (b) the sending or reception of news or the messages of persons other than the licensee or the person with whom he is communicating, (c) the sending or reception of broadcast programmes, or (d) the sending or reception of social or political propaganda, or the messages of any social or political organization is expressly prohibited.

(3) The licensee shall not receive any payment (either direct or indirect) for the use of the station or allow the station to be controlled by or used for the purposes of any social or political organization.

9. *Secrecy of Correspondence.*—If any message which the licensee is not entitled to receive is, nevertheless, received, the licensee shall not make known or allow to be made known its contents, its origin or destination, its existence or the fact of its receipt to any person (other than a duly authorized officer of the Cyprus Government or a competent legal tribunal) and shall not reproduce in writing, copy or make any use of such message or allow the same to be reproduced in writing, copied or made use of.

10. *Call Signal.*—The call signal ZC4 has been allotted to the station. The prefix of nationality, i.e. "ZC4", must invariably be included in the call signal which may be sent either by morse telegraphy at a speed not greater than 20 words per minute or telephonically if the station is authorized to use telephony.

The call signal must be sent for identification purposes at the beginning and at the end of each period of sending.

In calling another station the call signal of that station must be sent and may be repeated throughout a period of not more than one minute, after which the signal "de" must be sent once and the call signal of the calling station three times. This procedure may be repeated but the time taken in calling must not exceed three minutes without an interval during which the operator must listen in the band of frequencies in which the call has been made.

In answering a call, the call signal of the calling station must be sent three times, the signal "de" once and the call signal of the answering station three times.

When telephony is used the letters of the call signals may be confirmed by the pronunciation of well-known words of which the initial letters are the same as those in the call signals, but words used in this manner must not be of a facetious character nor be capable of undesirable misinterpretation.

11. *Inspection.*—The station shall be subject to the approval of the Postmaster-General and together with the record of transmissions and this licence shall be open to inspection at all reasonable times by officers or persons duly authorized by the Postmaster-General.

Recd. S.L. 21.3.51 p. 129
 12. *Non-interference.*—~~The station shall be used in such a manner as not to cause interference with other stations outside the authorized bands.~~ Sending shall at once be discontinued or postponed at the request of any Government or commercial station, and the Postmaster-General shall have the right to prohibit, without compensation, the use of transmitting apparatus in any particular area, should this be necessary in his opinion for the purpose of ensuring the interference-free operation of official or commercial services.

When telegraphy is being used the arrangement employed for "keying" the sender must be such as to reduce to a minimum the risk of interference due to key clicks being produced in neighbouring apparatus. Whenever, for any reason, the carrier wave of the sender is being modulated by any system of modulation, care must be taken to avoid overmodulation. Particular care must be taken to avoid unwanted frequency modulation of the carrier frequency. At all times every precaution shall be taken to prevent the radiation of energy at frequencies other than those which are necessary for the type of emission in use.

13. *Aerial.*—If the station is situated within half a mile of the boundary of any aerodrome, the height of the aerial above the ground level shall not exceed 50 feet and shall be subject to any other special restrictions which may be laid down by the competent aerodrome authorities. An aerial which crosses above or is liable to fall upon or to be blown on to any overhead power wire (including electric lighting and telegraph or telephone wires) or power apparatus must be guarded to the reasonable satisfaction of the owner of the power wire or power apparatus concerned.

14. *Control in Emergency.*—(a) If and whenever in the opinion of the Postmaster-General an emergency shall have arisen in which it is expedient for the public service that the Cyprus Government shall have control over the sending and receipt of messages by means of the station it shall be lawful for the Postmaster-General to direct and cause the station to be taken possession of in the name and on behalf of the Governor and to prevent the licensee from using it and for these purposes or either of them to cause any part of or all the apparatus forming the station to be removed to such place as he may think fit and any person authorized by the Postmaster-General may from time to time enter the premises at which the station is maintained for any such purposes as aforesaid.

(b) The licensee shall not be entitled to any compensation in respect of the exercise by the Postmaster-General of the power conferred by this condition which shall remain in force notwithstanding the withdrawal or modification of the licence.

15. *Use of Supply Mains.*—If power for the working of the wireless station is taken from a public electricity supply no direct connection shall be made between the supply mains and the aerial.

16. *Broadcast Reception.*—This licence does not authorize the reception of broadcast programmes for entertainment purposes. For the reception of broadcast programmes for entertainment a separate broadcast receiving licence is necessary.

17. *Copyright.*—This licence does not authorize the licensee to do any act which is an infringement of any copyright which may exist in the matter transmitted.

18. *Fees.*—The licensee shall pay forthwith to the Postmaster-General for and in respect of the licence hereby granted a fee of £..... on the grant hereof and a fee of £..... on the corresponding day of the date hereof in each year during which this licence shall remain valid.

19. *Cancellation of Licence.*—This licence is subject to cancellation or modification by the Postmaster-General at any time, either by specific notice in writing sent to the licensee by post at the address shown above, or by means of a general notice in the *Gazette* addressed to all holders of amateur wireless licences.

Any breach of the conditions or non-payment of fees will render this licence liable to cancellation. In the event of cancellation no part of any fee paid in respect of the current year will be returned.

20. *Return of Licence.*—When this licence is cancelled or superseded by a new licence it must be returned to the Postmaster-General, General Post Office, Nicosia, together with any letters authorizing additions or alterations to the terms of the licence.

21. *Renewal of Licence and Payment of Renewal Fee.*—The licensee shall apply for the renewal of this licence before its expiration and such renewal for a further period of one year may be granted by the Postmaster-General on payment of the prescribed fee. The fee should be forwarded on the due date to the Postmaster-General, General Post Office, Nicosia, quoting the reference given on the licence. It is unnecessary to forward the licence when the renewal fee is remitted.

FOURTH SCHEDULE.

GOVERNMENT OF CYPRUS.

LICENCE TO ESTABLISH WIRELESS TELEGRAPHY SHIP STATION.

Issued by virtue of the Wireless Telegraphy Laws, 1913 to 1948, and the Merchant Shipping (Wireless Telegraphy) Law, 1922, and in conformity with the Radiotelegraph Convention.

FORM.

.....
 of
 (Name in full to be shown in block letters)

.....
 (address in full)
 is hereby licensed to establish and work a wireless telegraphy sending and receiving station in the ship specified below, subject to the terms, conditions and restrictions stated on the back hereof.

PARTICULARS OF STATION.

Name of Ship.....

Call Sign.....

Class of Station under the Radiotelegraph Convention.....

The licensee is authorized to use the power, frequencies and types of emission which for the time being appear against the name of the ship in the International List of Ship Stations published by the International Office of the Telegraph Union and also any additions which shall have been notified in conformity with clause 12 of the terms, conditions and restrictions set forth at the back hereof. This authority does not include the use of frequencies above 1,500 kc/s (waves below 200 metres) unless particulars have been entered hereunder before the issue of the licence.

* Installation for use of frequencies above 1,500 kc/s.

Frequencies (waves).....

Type(s).....

* *Note.*—If an installation for the use of frequencies above 1,500 kc/s is not authorized, the words “not authorized for working on frequencies above 1,500 kc/s” are entered in place of the particulars.

Dated the.....day of....., 19.....

NICOSIA,
 CYPRUS.

.....
 Postmaster-General.

TERMS, CONDITIONS AND RESTRICTIONS.

1. The licensee shall comply with all the provisions of the Radiotelegraph Convention which relate to mobile stations and the stations shall be worked in conformity with such provisions, and also in conformity with the relative provisions of the International Telegraph Regulations.

2. In so far as the regulations relative to wireless telegraphy made from time to time by the Government of Cyprus under the Wireless Telegraphy Laws, 1913 to 1948, and the Merchant Shipping (Wireless Telegraphy) Law, 1922, or under any other Merchant Shipping Law for the time being in force, apply to the ship in question, the licensee shall comply in all respects with these regulations.

3. The station shall only be used to send messages and signals to other stations for the mobile service and to receive messages and signals from other stations of the mobile service.

4. The station shall cease working (except in the case of distress working) on being instructed to do so by any British Naval or Air Force Station.

5. The licensee shall keep the station and in particular the headgear receivers thereof in a clean and sanitary condition.

6. The licensee shall screen all lights emanating from the station and screen or isolate all dangerous parts thereof in such manner as may be necessary to ensure the reasonable comfort and health of operators.

7. In respect of messages sent or received on behalf of His Majesty's Government in the United Kingdom, or His Majesty's Government in any of the Dominions, or the Government of any British Colony, Protectorate or Mandated Territory the licensee shall charge rates not in excess of half of the rates charged to the ordinary public.

8. The station shall be worked only by operators holding certificates issued or whose validity is recognized by the British Postmaster-General.

9. The licensee shall not receive by means of the station messages not intended for receipt thereby and if any such messages shall involuntarily be received at the station the licensee shall not divulge the existence or the contents thereof to any person (other than duly authorized officials of the Government or a competent legal tribunal).

10. The licensee shall keep full accounts, records and registers of all messages sent and received by means of the station and in such registers each of such messages shall be accompanied by its identifying number and date and full particulars of its place of origin and of ultimate destination and such further particulars as the Postmaster-General shall, from time to time, reasonably require to be shown messages on His Majesty's Service being in such registers distinguished from other messages. The licensee shall preserve all used message forms written and printed and transcripts of messages and all other papers for such period as is from time to time prescribed by the International Telegraphy Regulations and such registers and message papers shall be open to the inspection of the Postmaster-General or his officers thereto authorized at the office for the time being of the licensee's agent resident in Cyprus or at such other place as may be agreed between the hours of 10 a.m. and 5 p.m. on every day except Sunday or a gazetted or general holiday.

11.—(1) The licensee shall render to the Postmaster-General such accounts as the Postmaster-General shall direct in respect of all charges due or payable under the Radiotelegraph Convention in respect of messages exchanged between the station and coast stations and shall pay to the Postmaster-General at such times and in such manner as the Postmaster-General shall direct all sums which shall be due from the licensee under such accounts.

(2) The licensee shall from time to time deposit with the Postmaster-General such sums as he may by notice in writing to the licensee require to be held by the Postmaster-General as security for payment by the licensee of any sums which may be or become due to the Postmaster-General under the provisions of sub-clause (1) of this clause.

12. The licensee shall notify the Postmaster-General of any alteration which may be made from time to time in the power of frequencies or type or types of waves used for transmission.

13. The Postmaster-General and his duly authorized officers may at all reasonable times enter upon the station for the purpose of inspecting and may inspect any apparatus fixed or being in the station for the purpose of sending and receiving messages by wireless telegraphy and all other telegraphic instruments and apparatus fixed or being in the station and the working and use of such apparatus and telegraphic instruments, respectively.

14. The present licence, the Radiotelegraph Convention and the British Postmaster-General's Handbook for Wireless Operators shall be carried on board the ship in the wireless room, together with any other documents which the Postmaster-General may prescribe as necessary for carrying on the work of the station. The licence shall be available for inspection when required by competent authorities of the countries where the ship calls.

15. The licensee shall forthwith pay to the Postmaster-General for and in respect of the licence hereby granted a sum of _____ and in addition thereto a sum of two pounds on the 1st day of January in each year during which the licence remains valid.

16. This licence may be revoked and determined at any time by the Postmaster-General by notice in writing to the licensee and shall therefrom cease, determine and become void but without prejudice to any right of action or remedy which shall have accrued or shall thereafter accrue to the Postmaster-General under any condition or provision herein contained.

17. Any notice, request or consent (whether expressed to be in writing or not) to be given by the Postmaster-General under this licence may be signed by any officer of the Post Office duly authorized by him and may be served by being sent in a registered letter addressed to the licensee's agent resident in Cyprus for the time being or at his last known address or by delivery to the master of the ship upon which the station is installed and any notice to be given by the licensee, under this licence may be served by being sent in a registered letter addressed to the Postmaster-General, General Post Office, Nicosia, Cyprus.

18. The expression "British Postmaster-General" means the Postmaster-General of the United Kingdom of Great Britain and Northern Ireland.

19. The expression "Radiotelegraph Convention" means the Convention signed at Washington on the 25th day of November, 1927, and the Service Regulations made thereunder and includes any Convention and Regulations which may from time to time be in force in substitution therefor or in amendment thereof.

The expression "International Telegraph Regulations" means the Regulations signed at Paris on the 29th day of October, 1925, and includes any Regulations which may from time to time be in force in substitution therefor or in amendment thereof.

20. The expressions used in this licence have the same meanings as in the Radiotelegraph Convention unless there is something in the subject or context repugnant to such construction.

21. This licence covers the installation and maintenance of apparatus for wireless telegraphy upon lifeboats carried by the ship and the use of such apparatus during the voyage of the ship or during an emergency, subject to the conditions contained in the licence except condition 8. Such apparatus shall comply in all respects with any regulations relating to wireless telegraphy installations in ships' lifeboats which may be made by the Government of Cyprus from time to time.

22.—(1) If and whenever an emergency shall have arisen in which it is expedient for the public service that His Majesty's Government shall have control over the sending and receiving of messages by the station it shall be lawful for the Postmaster-General or any other person authorized by the Government of Cyprus to take possession of the station or any part thereof in the name and on behalf of His Majesty and to use the same for His Majesty's service and in that event any such officer or person so authorized may enter upon any ship on which a station is

established and take possession of the station and use the same as aforesaid and subject to such use may use the same or allow it to be used for such ordinary services as may in his discretion seem fit to him or may prohibit and take steps to prevent the use of the same and issue directions which shall be obeyed by the licensee to prevent such use.

(2) Any such officer or person so authorized as aforesaid may in any such event as aforesaid instead of taking possession of the station as aforesaid direct and authorize such persons as he may think fit to assume the control of the sending and receiving of messages by the station either wholly or partly and in such manner as he may direct and such persons may enter upon any ship on which a station is installed accordingly or the said officer or person so authorized as aforesaid may direct the licensee to submit to him or any person authorized by him all messages tendered for despatch or received by the station or any class or classes of such messages to stop or delay the sending of any messages or the delivery thereof or deliver the same to him or his agent and generally to obey all such directions with reference to the sending, receiving or delivery of messages as the said officer or person so authorized as aforesaid may prescribe and the licensee shall obey and conform to all such directions.

(3) The licensee shall obey any instructions which may be issued by the Admiralty for observance by wireless telegraph ship stations during any such emergency as aforesaid.

(4) The licensee shall be entitled to reasonable compensation for any damage to the station arising in consequence of the exercise of the powers conferred by sub-clauses (1) and (2) of this clause.

FIFTH SCHEDULE.

GOVERNMENT OF CYPRUS.

The Wireless Telegraphy Laws, 1913 to 1948
and
The Wireless Telegraphy Order, 1948.

Licence to establish, instal and work a Wireless Telegraphy Sending and Receiving Station, or a Wireless Telegraphy Receiving Station, for the purpose of sending and receiving or of receiving air navigational and meteorological messages.

This deed made the..... day of..... between..... (hereinafter called "the Governor" which expression where the context so admits shall include his successors in office and the Officer Administering the Government of the Colony of Cyprus for the time being), of the one part, and....., of..... (hereinafter called "the Licensees" which expression where the context so admits shall include their agents and permitted assigns) of the other part:

Whereas by reason of the provisions of the Wireless Telegraphy Laws, 1913 to 1948, it is unlawful to establish any wireless telegraphy station or instal or work any apparatus for wireless telegraphy in any place in Cyprus except under and in accordance with a licence granted in that behalf by the Governor:

And whereas the Licensees have applied for the grant of a licence to establish, instal and work a Wireless Telegraphy Sending and Receiving Station or a Wireless Telegraphy Receiving Station at....., in the District of....., for the purpose of sending and receiving or of receiving air navigational and meteorological messages:

And whereas the Governor has agreed to grant to the Licensees the licences, powers and authorities hereinafter referred to:

Now this deed witnesseth as follows:—

1. In these presents unless the context otherwise requires—

"Wireless Telegraphy" has the same meaning as in the Wireless Telegraphy Laws, 1913 to 1948.

“Naval Signalling” means signalling by means of any system of wireless telegraphy between two or more ships of His Majesty’s Navy, between ships of His Majesty’s Navy and Naval Stations or between a ship of His Majesty’s Navy or a Naval Station and any other Wireless Telegraph Station whether on shore or on any ship or in any aircraft.

“Army Signalling” means signalling by means of any system of wireless telegraphy between Units of His Majesty’s Forces or between any Unit of His Majesty’s Forces and any Wireless Station.

“Government Aircraft Signalling” means signalling by means of any system of wireless telegraphy between two or more Government Aircraft or between any Government Aircraft and any Wireless Station or between any Government Aerodrome and any other Wireless Station.

“The Radiotelegraph Convention” means the Convention signed at Washington on the twenty-fifth day of November, One thousand Nine hundred and Twenty-seven, and the Service Regulations made thereunder and includes any Convention and Regulations which may from time to time be in force in substitution therefor or in amendment thereof.

2. The Governor hereby grants to the Licensees licence and permission as is hereinafter provided—

(a) to maintain a Wireless Telegraphy Sending and Receiving Station or a Wireless Telegraphy Receiving Station (hereinafter referred to as “the Station”), at

.....
in the District of.....;

(b) to send and receive or to receive by means of the Station air navigational and meteorological messages to and from any aircraft.

3. The apparatus installed in the Station shall be of the character specified in the Schedule hereto and shall be subject in all respects to the approval of the Governor. Only the wavelength specified in the Schedule shall be used for sending messages by means of the Station.

4.—(1) The messages sent by means of the Station in pursuance of clause 2 hereof shall be in such form as shall from time to time be approved by the Governor in writing.

(2) The Station shall not be used for any purpose whatsoever other than the sending and receiving or the receiving of the messages, the sending and receiving or the receiving of which thereby is expressly authorized by clause 2 of these presents and in particular without prejudice to the generality of this provision the Licensees shall not without the consent in writing of the Governor—

(a) use the Station for the sending and receiving or the receiving of news or any messages on the business or private affairs of the Licensees, their members or of any other person, or

(b) receive any money or other valuable consideration in respect of the transmission of any messages by means of the Station.

5. The Licensees shall keep a copy of every message sent by means of the Station and a record of the date and time of its despatch. All copies and records shall be retained for one year and shall be produced for inspection by an officer of the Cyprus Government duly authorized by the Governor at all reasonable times.

6.—(1) The Licensees shall not, by the sending or receipt of any message by means of the Station or otherwise by the use thereof, interfere with Naval Signalling, Army Signalling or Government Aircraft Signalling.

(2) Whenever the operators at the Station perceive through the medium of the instruments used by them or otherwise that Naval Signalling, Army Signalling or Government Aircraft Signalling is being interfered with they shall refrain from using the Station until all indication that such Signalling is being interfered with shall have ceased.

(3) The Licensees shall, if and whenever so required in writing by the Governor, cease to use the Station for such period (not exceeding two hours in any one day) as may be specified by the Governor.

(4) If the Governor is of opinion that the working of the Station is inconsistent with the free use of Naval Signalling, Army Signalling or Government Aircraft Signalling, as the case may be, the Licensees shall, when required in writing by the Governor, close such Station.

(5) These provisions for the protection of Naval Signalling, Army Signalling and Government Aircraft Signalling shall be construed to be without prejudice to the generality of any other provisions of this Licence.

7. The Licensees shall observe and perform the provisions of the Radiotelegraph Convention so far as they are applicable to the Station.

8. A master oscillator or other method of control of tuning approved by the Governor shall be used at the Station and the frequency of the waves emitted therefrom shall be as constant and free from harmonics as is reasonably possible.

9.—(1) The Licensees shall so work the Station as not to interfere with the working of any Wireless Telegraphy Station established in Cyprus or the territorial waters abutting on the coasts of Cyprus (whether on shore or on any ship or in any aircraft) by or for the purpose of the Governor or any Department of His Majesty's Government or for commercial purposes and in particular with the transmission of any messages between or at Wireless Telegraphy Stations established as aforesaid on land and Wireless Telegraphy Stations established on ships at sea or in any aircraft.

(2) With a view to preventing such interference as aforesaid the Licensees shall comply with all directions which shall be given to the Licensees by the Governor:—

- (a) with respect to all arrangements to be adopted for the purpose of securing syntonized apparatus or for enabling the messages exchanged by means of the Station to be distinguished from those emanating from any other Wireless Telegraphy Station, and
- (b) with respect to any alteration of messages which the Governor may think necessary, and
- (c) generally with respect to avoiding interference between one Wireless Telegraphy Station and another.

(3) Apparatus shall be deemed to be "syntonized" when the sending apparatus is so adjusted as to communicate with a receiver which has a corresponding adjustment and to produce as little effect as possible on a receiver not having a corresponding adjustment.

10. The Station shall be worked only by persons holding First or Second Class Certificates of proficiency in Radiotelegraphy issued by His Majesty's Postmaster-General for the United Kingdom.

11. The Station shall not without the consent in writing of the Governor be altered or modified in respect of any of the particulars mentioned in the Schedule hereto.

12. The Licensees shall at all times indemnify the Governor against all actions, claims and demands which may be brought or made by any corporate company or person in respect of any injury arising from any act licensed or permitted by these presents.

13. The Licensees shall so far as possible refrain from receiving by means of the Station messages not intended for receipt thereby and if any such messages (and in particular without prejudice to the generality of this provision messages sent by Naval Signalling, Army Signalling or Government Aircraft Signalling or by any British Government Station) shall involuntarily be received at the Station the Licensees shall not divulge the existence or the contents thereof to any person (other than to an Officer duly authorized by the Governor or a competent legal tribunal) or reproduce such messages in writing or make use thereof.

14. The Licensees shall forthwith pay to the Postmaster-General for and in respect of the Licence hereby granted a sum of _____ and in addition thereto a sum of three pounds on the 1st day of January in each year during which the Licence remains valid.

15. The Postmaster-General and his duly authorized officers may at all reasonable times enter upon the Station for the purpose of inspecting and may inspect any apparatus fixed or being in such places, respectively, for the purpose of sending and receiving messages by wireless telegraphy and all other telegraphic instruments and apparatus fixed or being therein and the working and user of such apparatus and telegraphic instruments, respectively.

16.—(1) The Station shall be so worked by the Licensees as not either directly or indirectly to interfere with the efficient or convenient maintenance working or user of any telegraphic line which may from time to time exist or to expose any such line to risk of damage or to risk of interference with the efficient or convenient working or user thereof.

(2) In case any such telegraphic line shall be damaged or the efficient working or user thereof shall be wholly or partially interrupted or otherwise interfered with and the Postmaster-General shall certify in writing under his hand that such damage, interruption or interference has been caused directly or indirectly by the construction and working of the Station, the Licensees shall on demand pay to the Governor all costs that shall be reasonably incurred in repairing such damage and in removing or altering such telegraphic line so as to restore the same to efficient working order and in adding thereto or substituting therefor either temporarily or permanently any other telegraphic line if the said Postmaster-General shall certify that such addition or substitution is reasonably required.

(3) For the purpose of this clause the expression "telegraphic line" includes telegraphic line belonging to or worked by any body of persons or person.

17. Except with the consent in writing of the Governor the Licensees shall not assign, underlet or otherwise dispose of or admit any other person or body to participate in the benefit of the licences, powers or authorities hereby granted or any of such licences, powers or authorities.

18.—(1) If and whenever in the opinion of the Governor an emergency shall have arisen in which it is expedient for the public service that His Majesty's Government or the Government of Cyprus shall have control over the transmission of telegrams by means of the Station it shall be lawful for the Governor to direct and cause the Station or any part thereof to be taken possession of in the name and on behalf of His Majesty and prevent the Licensees from using it and to cause the Station to be used for His Majesty's Service and in that event any person authorized by the Governor may enter unto the Station Offices and Works of the Licensees and take possession thereof and use the same as aforesaid.

(2) The Licensees shall not be entitled to claim compensation from the Governor in respect of any loss sustained by them on account of the exercise of the powers conferred on him by sub-clause (1) hereof or for the use of the Station in pursuance thereof or otherwise howsoever: Provided always that the Governor shall recompense the Licensees in respect of damage caused to the Station otherwise than by fair wear and tear.

19. These presents shall be valid and effective and shall continue in force until determined by the Governor by a notice in writing as provided by clause 20 hereof.

20. The Governor may at any time by one month's notice in writing to the Licensees revoke and determine the licences, powers and authorities hereinbefore granted and each and every of them and upon the expiration of such period of one month as aforesaid these presents and the said licences, powers and authorities and each and every of them shall absolutely cease determine and become void: Provided always that no such revocation or determination as aforesaid shall prejudice or affect any right of action or remedy which shall have accrued or shall thereafter accrue to the Governor or the Licensees under any conditions or provision herein contained.

21. Nothing in these presents contained shall prejudice or affect the right of the Governor from time to time to establish, extend, maintain and work any system or systems of telegraphic communication (whether of a like nature to that hereby licensed or otherwise) in such manner as he shall in his discretion think fit neither shall anything herein contained prejudice or affect the right of the Governor from

time to time to grant licences relative to the working and user of telegraphs (whether of a like nature to those hereby licensed or otherwise) or the transmission of messages in any part of the Colony of Cyprus by means of wireless telegraphy or by any other means to any person or persons whomsoever and (save as in this Licence expressly provided) nothing herein contained shall be deemed to authorize the Licensees to exercise any of the powers or authorities conferred on or acquired by the Governor by or under the Wireless Telegraphy Laws, 1913 to 1948.

22. Any notice, request or consent (whether expressed to be in writing or not) to be given by the Governor under these presents may be signed by the Postmaster-General or any other officer duly authorized by him and may be served by being sent in a registered letter addressed to the Licensees or their agent resident in Cyprus for the time being and any notice to be given by the Licensees under these presents may be served by being sent in a registered letter addressed to the Postmaster-General, General Post Office, Nicosia, Cyprus.

In witness whereof the Governor and the Licensees have hereunto set their hands and seals the day and year first before written.
